Empowering Your Tribe with Technology to Engage the Community for Generations to Come

As an Alaska Native Corporation, Arctic IT uses our tribal domain expertise to elevate and simplify technology for tribal governments and businesses. We know that security and availability of tribal government services is a dependency of all tribal members. Arctic IT deploys enterprise solutions on the **Microsoft Dynamics 365** platform that digitally transform the services and engagement of the community as it evolves.

TRIBAL PLATFORMS MEMBER SERVICES

Our **Tribal Platforms®** suite provides a scalable and configurable software solution that centralizes member and family data. The foundation, Tribal Platforms Enrollment, utilizes an "outcomes-based" case management framework built within Dynamics 365. These fully integrated capabilities provide a secure, 360-degree view of the member and family in real-time to ensure the right services are in place at the right time.

- Tribal Platforms Enrollment on Dynamics 365
- Microsoft Office 365 Integration
- Secure Hosting in Microsoft Government Cloud
- Document Management with SharePoint
- ID Card Printing
- Shareholder Records Management
- Family Wellness, Education, and Community Engagement

TRIBAL PLATFORMS FINANCE & OPERATIONS

Tribal Platforms is also fully integrated with accounting and finance to provide a dependable audit trail for all financial assistance services provided.

- Financial Management
- Procurement Management
- Business Intelligence
- Human Resource Management
- Grant and Project Management
- Housing and Loan Management
