Enhance Member Management with Reliable, Modern Technology

The **Enrollment** base application on **Tribal Platforms®** centrally manages vital member data and serves as the foundation for expanding the use of technology across the tribe.

Tribal Platforms Enrollment provides a **secure, centralized database** allowing multiple departments real-time access to current member data. This software is intuitive, powerful, and easy to use. Tribal Platforms is built on **Microsoft Dynamics 365 and the Power Platform** with layered security built-in to keep your data confidential.

Ready to elevate and simplify? Contact us at 844.461.9500 or connect@arcticit.com.

The **Tribal Platforms Enrollment** app is the member management tool of the future, designed to help tribes with their digital transformation.
