# TRIBAL PLATFORMS®
BY ARCTIC IT HOUSING

Elevate Member Services with Digitized Housing Management

The **Tribal Platforms® Housing**
application digitizes processes and drives efficiency for housing assistance, programs, properties, and member households management.

Tribal Platforms Housing improves data accuracy and collaboration between Housing and Enrollment departments with shared Member Records. The system helps you effectively manage budgets for housing programs with robust reporting and analytics built-in.

Our Housing management software is designed for tribal governments on the **Microsoft Power Platform** with layered security built-in to keep your data confidential.
