

Empowering Your Tribe with Technology to Engage the Community for Generations to Come

As an Alaska Native Corporation, Arctic IT uses our tribal domain expertise to provide leading-edge technology for tribal governments and businesses. We've taken the needs of our tribal communities and created secure cloud solutions specifically designed to secure and modernize operations. We implement technology that culturally supports every aspect of modern community engagement.

TRIBAL PLATFORMS MEMBER SERVICES

Our **Tribal Platforms®** suite provides a scalable and configurable software solution that centralizes member management and services data. The foundational application, Enrollment, utilizes an "outcomes-based" case management framework built within **Dynamics 365**. These fully integrated capabilities provide a secure, 360-degree view of the member and family in real-time to ensure the right services are in place at the right time.

- Tribal Platforms on Microsoft Dynamics 365 and the Power Platform
 - Enrollment, Family Wellness, Distribution Payments, Tribal Court, Housing, Education and Community Portal
- Microsoft 365 Apps Integration
- Secure Hosting in Microsoft Government Cloud
- Document Management with SharePoint
- ID Card Printing

FINANCE & OPERATIONS FOR TRIBAL GOVERNMENTS

Tribal Platforms is also integrated with **Dynamics 356 Finance** to provide a dependable audit trail for all financial assistance services provided.

- Financial and Budget Management
- Procurement Management
- Business Intelligence and Financial Reporting
- Grant and Project Management

CLOUD MANAGED SERVICES & SECURITY

Our **ArcticCare 365** offering provides cloud managed services and security for **Microsoft 365**.
