Fast Track Your State & Local Government Technology Purchases

The **GSA Multiple Award Schedule (MAS) Technology Program** is designed to save time and money and support the federal government's strategy of modernizing and simplifying the purchasing process. State and local governments qualify for the MAS with the **GSA Cooperative Purchasing Program**.

The GSA MAS Technology Program provides the following value:

- **Follow an easier process with faster acquisition**
- **Eliminate the cost and time it takes to go through the RFP Process**
- **Work with pre-qualified contractors experienced in providing the services you need**
- **Rely on pre-negotiated terms, conditions, and competitive prices**
- **Leverage a small business (Section 8a) contract under the Federal Acquisition Regulation (FAR)**

How to purchase technology through the GSA MAS program:

1. **GSA Advantage:** State and local government entities may use GSA Advantage® after they register and obtain the necessary approvals.

2. **Using eBuy:** State and local government entities may also use eBuy to create an online Request for Quotation (RFQ) that helps you make the best qualified purchase decisions. Learn more about the requirements and your use of eBuy at our Cooperative Purchasing FAQ page.

Commercial products and services are available for purchase by state and local governments under 40 U.S.C. § 502(c). Entities that clearly fall under the definition of state and local government do NOT need to request an eligibility determination. Arctic IT is qualified to serve your agency under the MAS Categories below.

Arctic Information Technology – Contract# GS-35F-192DA (SBA Certified 8(a) Firm, Small Disadvantaged Business) SIN Numbers:
