

# 1-Hour CMMC Consultation & Action Plan

When pursuing contractual work with the federal government, **understanding Cybersecurity Maturity Model Certification (CMMC) can feel overwhelming.**

*Unsure if current or future prime/sub contracts will require CMMC?  
Wondering whether you need Level 1 vs. Level 2?  
Unclear about what it takes in time, budget, and changes to get ready?*

If you answered yes to any of these, this consultation is built for you. Cut through the noise and get the answers you need from a **focused working session with your core team and Arctic IT.**

## What This Consultation Includes

During the session with an Arctic IT cybersecurity consultant experienced in CMMC and NIST 800-171, we will:

- **Discuss your business, data, contracts, and obligations**
- **Determine whether you need CMMC and at what level**
- **Discuss your high-level security and network approach based on self-reported information**
- **Confirm the existence of key security policies and documentation relevant to CMMC**
- **Review identity, access, and patching approaches to understand how they are managed today**
- **Assess incident response readiness**

We work with organizations that depend on federal, Defense, and tribal contracts, where security and compliance expectations keep rising. As a Microsoft Solutions Partner, our team combines real-world cybersecurity experience with a deep understanding of DoD and government requirements to help you translate CMMC into practical, doable steps for your organization.

## Deliverables

After the consultation, you'll receive a **CMMC Action Plan** tailored to your organization, including:

- **Your current state in plain language**
- **A list of key gaps and risks tied to CMMC expectations**
- **Recommended remediation steps, documentation needs**
- **Priority levels, so you know what to tackle first**
- **Practical guidance on what it will realistically take (time, money, and resources) to move toward your target level**

**Pricing: \$500**

*Ready to turn CMMC confusion into a clear plan for your team?*

Schedule your CMMC Consultation today.
